

Cruisin' With the Deuce

Quarterflash

I can roll by

I'm shaking, I was breaking, and it's always too fast
I can't quite hold on to this life
And only at moments at night when I drive
Does anything ever feel right

Cruisin' with the deuce tonight
Cruisin' with the deuce tonight

The moon's up and the heat's down
You can turn off your lights
Roll through the backroads I find
Just when you feel like you're losing control
Everything falls into line

Cruisin' with the deuce tonight
Cruisin' with the deuce tonight

Parking on the front line, I was never that ease
Broken, convinced, and confused
On the bypass, on the freeway, I'm holding my own
Nothing to lose, nothing to lose

Hot nights like a spotlight, you can live out your dream
And forget what you know in your heart
You can hold it, you can shake it, you can shout out your fear
Nobody can screw your up

Cruisin' with the deuce tonight
Cruisin' with the deuce tonight
Cruisin' with the deuce tonight
Cruisin' with the deuce tonight
