

# Try to Make It True

## Quarterflash

Look in my eyes and you'll find  
That I'm really gonna try this time  
I know that love has hurt before  
But I swear I'm gonna give a little more

Babe, I'm gonna try (Try!)  
Try! (Try!)  
Try to make it true  
Yes, I'm gonna try (Try!)  
Try to make it true

Just look at our friends fall apart  
It's easy these days to lose heart  
So hold me close like you do  
And believe me when I say to you

Babe, I'm gonna try (Try!)  
Try! (Try!)  
Try to make it true  
Yes, I'm gonna try (Try!)  
Try to make it true

It so easy to slide  
When your love is away  
Everybody begs you to choose  
The ways to keep you safe

So much of this world seems unreal  
I can touch it but it has no feel  
It's up to me, it's up to you  
Seems to me it's the least we can do

Babe, we've gotta try (Try!)  
Try (Try!)  
Try to make it true  
Yes, we've gotta try (Try!)  
Try to make it true  
Try to make it true, try to make it true  
Try to make it, try to make it true  
Try to make it  
Try to make it  
Try to make it  
Try to make it, make it true
