

Yo, we flying through your neighborhood in hyperspeed  
Astro travellin off that hydro weed  
I always keep my weeds on deck, smokin la  
(Yo, anywhere, everywhere, I spark the la)  
Never hittin no coke, that's no joke  
And yo, I don't poke needles in my veins  
I don't be goin for broke  
Strictly haze for days, travellin higher  
Petty people's down, wonderin why I'm so wired  
Cause we astro travellin, smokin sticky green  
Then we mental over madlib instrumentals  
Pull out the water tube  
I got the water jewels  
On the level, then all the negatives seckle  
Tranquility but still on the rugged  
Like a gentle giant unplugged token on bud  
Man, I get so high I hope I don't start babblin  
Yo, we astro travellin  
(Yo, you know we bout to)  
Yo, we flying through your neighborhood in hyperspeed  
Astro travellin off that hydro weed  
I always keep my weeds on deck, smokin la  
(Yo, everyday, anyday, yo, I spark the la)  
Never hittin no coke, that's no joke  
And yo, I don't poke needles in my veins  
I don't be goin for broke  
Strictly haze for days, travellin higher  
Petty people's down, wonderin why I'm so wired  
Cause we astro travellin, smokin sticky green  
Then we mental over madlib instrumentals  
Pull out the water tube. I got the water jewels  
On the level, then all the negatives seckle  
Tranquility but still on the rugged  
Like a gentle giant unplugged token on bud  
(From the spliff that I lift and inhale)
