

# Fading Away

Queen Naija

Laying next to you while you're asleep  
And I can't get you off my mind  
They say love usually comes in threes  
And you're only my second time

Where do we go from here?  
Feels like it's the end  
Is there a way we can hold on?  
Don't wanna start again

We both know it's not the same  
I can tell the way you look at me  
Asked God to make a change  
And he only made it plain to see  
You're here for a season  
And I'm looking for a reason to stay

Oh we're fading away  
Fading away  
Fading away  
Fading away  
Fading away  
Fading away  
Fading away  
Fading away

Wonder who will be the first to say it?  
I won't (No, no, no, no)  
Admit that I know that our love is fading?  
I don't know

And I hate it's not the same  
I can tell the way you look at me  
Asked God to make a change  
And he only made it plain to see  
You're here for a season  
And I'm looking for a reason to stay

Oh we're fading away  
Fading away  
Fading away  
Fading away  
Fading away  
Fading away  
Fading away  
Fading away

Fading  
Fading  
Fading  
Fading
