Intro

Queen Naija

What happened to Queen Naija? She was picking up momentum and t
hen she just fell off the face of the earth
Queen a fucking one-hit-wonder
She can't even sing
Like all her new stuff ain't been that hot
Just trash
She not that poppin'
I'm so tired of her singing about relationships
She not that cute
She just another lightskin artist that they all hype
Her voice is basic
She just another pretty face with an average voice, and that's
just a fact
Like all her shit sound the same
If nothing drops from Queen soon, she'll be another one-hit-
wonder
It's basic
She really let her pregnancy slow down her career
She still has no album out
That's why she irrelevant now
Like she fell off
She'll never have enough songs like medicine
At this point, I don't know if she'll be able to redeem herself
