

Missing You

Queen Naija

Haven't been myself since the day that you went away from me
And I try not to get emotional from the memories we shared
Sometimes I can't help it
God knows that you were special

If you ever loved and lost, then you would know
Just how it feels, feels so unreal
That you're not here, hope that I see you again
But until then, I'll be missing you

Forever missing you
Don't know what else to do
But dream of you, dream of you
And I'm missing you, missing you
Tryna keep my mind away from thinking 'bout you (All day)
Dreaming 'bout you (Always)
Thinking 'bout you
Really missing you, missing you
Dreaming 'bout you (All day)
Thinking 'bout you (Always)
Really missing you, missing you

Gotta cherish every moment 'cause we don't know the last
Never take each other for granted 'cause we could lose it all so fast
And even though I lost a friend
God's holding you in His hands

If you ever loved and lost, then you would know
Just how it feels, feels so unreal
That you're not here with me
I know I will see you again, see you again
Forever

Forever missing you (Forever missing you)
Don't know what else to do (Don't know what else to do)
But dream of you, dream of you
And I'm missing you, missing you
I'm tryna keep my mind away from thinking 'bout you (All day)
Dreaming 'bout you (Always)
Thinking 'bout you
Really missing you, missing you
Dreaming 'bout you (All day)
Thinking 'bout you (Always)
Really missing you, missing you

Forever (Forever missing you)
Don't know what to do, hey (Don't know what else to do)
(Dream of you, dream of you) Dream of you
(Missing you, missing you) Missing you
Tryna keep my mind away from thinking 'bout you all day
Dreaming 'bout you (Always)
Really missing you, missing you (I be missing you)
I miss you, I miss you (Always)
(Really missing you, missing you)

(Forever missing you)
(Forever missing you) Forever

(Forever missing you) Mm
(Forever missing you)
Missing you, missing you (Forever missing you)
Missing you, missing you (Forever missing you)
Missing you, missing you (Forever missing you)
I be missing you
Missing you, missing you (Forever missing you)
Missing you, missing you (Forever missing you, all day)
Missing you, missing you (Forever missing you, always)
Missing you, missing you (Forever missing you, all day)
Missing you, missing you (Forever missing you, always)
Missing you, missing you (Forever missing you, all day, always)
Missing you, missing you (Forever missing you, always, oh)
Missing you, missing you (Forever missing you, all day, always)
Missing you, missing you (Forever missing you)
