

What You Won't Do For Love

Queen Naija

All the ladies if you feel me help me sing it out (Oh yeah)

I should've never let you (Should've never let)
I guess I was too weak back then (Guess I was too week back then)
Even though I told myself I wouldn't settle
Even though I knew it would be stressful
But the pride in you
You just couldn't let me slide by you
That's when you came back around
You played the game with no respect (You played the game with no)
Finessed me to make you seem down (yeah)
Yeah, you finessed me, you got the best of me
Till I needed you so desperately
I fell for you with no intentions of ever catching me
Sometimes I wonder why you even had to mess with me
I swear I lost so many friends when I dealt with you
Because they want me when I told them I messed with you
I guess I probably should've listened, I ain't know my intuition
And a love that should've been unaccepted (Oh baby)
It still ain't yet baby

You and me have always been tied,
Even though you had me crying all them nights (yeah)
Even when you started acting like a fool
Somehow I always end up falling back for you
I know I probably should've loved myself
But I loved you more than anybody else
And even through all the hurt and the pain
You know my love for you will never fade away

Finally settled in
I waisted time on loving what I thought you could've been
I tried to wait around and see if you would change
But a few years later you still playing the same game
And I remember the time I caught you texting other girls,
And when I asked you about it, you said that I was insecure (You called me i
nsecure)
You told me I was crazy baby
But you must've forgot you made me that way (You made me this way)
I tried to be, the bigger person
And forgive you for making me feel so worthless
But I can't help to want to see you in pain
It still ain't yet for you, my love will remain
It's such a shame

You and me have always be tied
Even though you had me crying all them nights
Even when you started acting like a fool
Somehow I always end up falling back for you
I know I probably should've loved myself
But I loved you more than anybody else
And even through all the hurt and the pain
You know my love for you will never fade away

What you won't do (What you won't do)
Do for love (Do for love)
I've tried everything, but you don't give up (oooh)

What you won't do (Do for love)
You've tried everything, but you don't give up (But you don't give up)
But you don't give up
Ohhh ohhh...
