This ain't no tragedy This ain't no addiction This ain't no comedy This ain't no fiction But baby you make me laugh And baby you make me cry I don't mind either way Now I don't care why You just gotta laugh -- or cry Right till. The day you die..... Just open up your heart Or open up your eyes Laugh or cry So anytime you wanna laugh Anytime you wanna cry Just open up your heart Or open up your eyes And baby laugh -- or cry And baby I know That you'll thank me someday (Don't hide your emotions) And baby I know That you'll see it my way (Forget all of these notions) So anytime you wanna laugh Anytime you wanna cry Just open up your heart Or open up your eyes And baby laugh -- or cry Right till the day you die
