

# My Country I & I

Queen

Something horrid.....  
Oh Oh Oh  
I would not fight for my country  
I would not work to no rule  
Don't have no truck with no power game  
Won't be some other jerks tool  
Don't have no part 'cos one party and  
Another's all the same  
(Workin' for some other man)  
All the same  
Gonna play it  
(Workin' for some other man)  
At my own game  
Oh Ee Ooh  
'Oi you  
Don't wanna die for some old man's crusade  
Don't wanna hear what they feed  
Don't wanna kill for some cause of the age  
Don't wanna cry for somebody else's need  
Don't want no piece of no flag in the breeze  
Don't want no part cos one party and  
Another's all the same  
All the same  
Gonna play it at my own game  
Ooooooh not me  
Oi you  
You dcross the street I saw you  
With some other pretty face  
I loved you then I love you now  
I loved you then I love you now  
I had to take a chance  
Cos special moments only tend  
To happen now and then  
I had to take my chance and  
Grab the moment by its ears  
Not be just some fly on your wall  
Had to take my chance there  
So I asked you out to dance there  
I loved you then I love you now  
I loved you then I love you now  
I had to take a chance  
Cos special moments only tend  
to happen now and then  
Live for the present  
It's the only one we have  
Nobody gets out of here..... alive  
Life in the future might never come to pass  
You know -- the good times are now
