

Polar Bear

Queen

E **D** **A** **Asus**
Near the bright shop window sleeps a polar bear
Makes his eyes light up but I don't see him there

D **D7** **F#m** **A** **E**
Among the tinsel he gives everyone a smile

D
See him as you'd see a star

E
Love her from where you are

A **F#m** **D** **A**
He's not for, not for, not for sale

All around a woman walks a pretty girl
Someone like you've seen or by
It's hard to tell
And when you see her light seem around the lie
And see her as you'd see a star
Love her from where you are

Not for, not for, not for sale

And when the lights light up
To warn the grasping hand
Minor contentment wears a smile

Not for, not for, not for sale
Not for sale
