Queen

**Ami** **G Ami**

What is there left for me to do in this life

**G F**

Did I achieve what I had set in my sights

**Dmi**

Am I a happy man or is this sinking sand

**G**

Was it all worth it, was it all worth it

**Ami**

Yeah, now hear my story, let me tell you about it,

**F** **Dmi**

We bought a drum kit, blew my own trumpet,

**G**

Played the circuit, thought we were perfect

Was it all worth it, giving all my heart and soul and

Living breathing rock n roll, a godforsaken life,

Was it all worth it, was it all worth it

All these years

Put down our money without counting the cost,

It didn't matter if we won - if we lost,

Yes we were vicious, yes we could kill,

Yes we were hungry, yes we were brill

We served a purpose, like a bloody circus,

We were so dandy, we love you madly,

Was it all worth it,

Living breathing rock n roll, this godforsaken life,

Was it all worth it, was it all worth it,

When the hurly burly's done

**F**

**Dmi**

We went to Bali, saw God and Dali,

**G**

So mystic, surrealistic

Was it all worth it, giving all my heart and soul,

Staying up all night, was it all worth it,

Living breathing rock n roll this never ending fight,

Was it all worth it, was it all worth it

Yes it was a worthwhile experience

It was worth it.
