

Got a hole in my head  
Everything falls right out  
Through my ears, through my eyes  
Makes no difference where you are

You wanna know how I do it?  
I do it alright  
You wanna know how I do it?  
I do it alright

I feed the hole and I never go home  
There ain't nothing can fill it up  
I feed the hole and I never go home  
There ain't no one thing

A new road, a new road  
A new road, a new road  
You'll never get it right back, a new road  
You'll never get it right back, a new road

You wanna know how I do it?  
You wanna know how I do it?  
You wanna know how I do it?  
I do it alright

I feed the hole and I never go home  
There ain't nothing can fill it up  
I feed the hole and I never go home  
There ain't no one thing out there

Got me with a gun to my head  
I can't let it go  
Got me with a gun to my head  
I can't let it go, so I sing
