

## Ode To Clarissa

Queens of the Stone Age

I knock on your door  
I tiptoe on the floor  
I hope your daddy ain't home right now  
He warned me once before

You know he warned me once before

I stay up late  
So we can keep our date  
I love that we don't get no sleep  
So to your window I creep  
You know he warned me once before

I'm the one your mamma told ya 'bout  
I'm the one your pappa told ya 'bout

Now you're in love  
And why shouldn't you be  
I'm everything you'll never be  
You say don't leave  
Baby, I can't wait  
Next time, we share my second base
