## **California Kissin**

Queensberry

I still see you and me Underneath the bleachers of baseball field Just like a movie scene (Baby) Paying hide and seek Take the 101 and head to Venice Beach Won't tell them where we've been (Baby) I keep those memories Locked inside my head Wish I could have stayed Stayed whit you instead CHORUS You stole my heart with A California Kiss (California Kissin) I can't imagine Another day like this (California Kissin) Sippind lemonade Such a beautiful day You make the sun shine every time we touch You stole my heart with A California Kiss I can't get you off my mind Felt like a movie star Riding with my high heels on your bike Down Hollywood Blvd (Baby) It's getting dark Sleeping with my head on your shoulder While you played quitar (baby) I keep those memories Locked inside my head Wish I cold have stayed Stayed with you instead CHORUS

Just imagine everything that could have been Take yot to places that you have never seen Lips like ice cream, strawberry cheesecake, So sweet take my hand and let's walk to the end of the world You would be my favourite boy, I could be your favorite toy And enjoy every night, every morning, every day, everyday in LA It's what I'm missing the California Kissin

CHORUS
