

# Dare

## Queensrÿche

You say that I got something real  
Line up, let's take it to the stream  
When you put it one slows me down  
Give up, they're about to put you throw it round

Can we stick it anymore?  
I won't mistake it anymore

Slow dance around, no extent  
If it's taking high on context  
I'll put you down and take you out

What do you got? What do you got to show?  
Look me in the eye, that's how I know

You wouldn't (dare)  
You wouldn't (dare)  
You wouldn't (dare hurt me)  
Confusions maybe hurt yourself

Positively guaranteed  
There's no one there when you bleed  
Scrape away our memories left  
Got against, yall avenged early  
Not a chance

All this time that I've let you slide  
I'm just waitin for the day  
I've got nothing but time  
(dare)  
You wouldn't (dare)  
You wouldn't (dare cross me)  
I don't mind about but I cross yourself

Uh, you just bout to get hurt  
Yea, you just bout to get hurt

Gotta get yo head steady  
Gotta get yo head  
Gotta get yo head steady  
Gotta get, Gotta get yo head steady

To live in fear with every breath  
I hope it's worth it  
I hope it's worth a a flatch

You think you're different but you're the same  
Don't stay around with your frozen hells  
When you lie for someone has to be

You wouldn't (dare)  
You wouldn't (dare)  
You wouldn't (dare hurt me)  
Confusions maybe hurt yourself

Hurt yourself  
Hurt yourself

You wouldn't dare
