Everything

Queensrÿche

I just break up out your heart
We can be here with a brand new start
We had something good for so long

I was looking for signs
When I saw myself fall
I looked in your eyes
And I saw evil

We could have everything and more
Anything that we can imagine
If we live that way
I know it could happen

I never meant to break your heart
I never meant to pull my rubble with it
I want to trust that our love is real
I want to believe in this good sin

Let's start over now
I don't want to wait
The future is ours
It's never too late

We could have everything
We could have everything

We could have everything
We could have everything
If you believe…
Dreams can come true

We could have everything and more
Everything that life has in store
Won't you come back to me?
I know it can happen

We could have everything and more
Anything that we can imagine
Just gleam that way
You know everything can happen

We could have everything and more
Everything that life has in store
I swear I'll find a way
I'll find a way

We could have everything
We could have everything
We could have everything
We could have everything
