

Slave

Queensrÿche

At the top of the world
I'm surprised
Decisions made for everyone
And the beat to last
The bottom that you missed
Everything you want
And you can't live either way
You can't remember the tears

You're a slave to the light
Yea you're a slave to the light
It doesn't matter what you say
Imagine what they'd do
Turn your back, they're coming for you

You're a slave dragging your chain
Slave, look out for you'll fall
Slave, you thought you were a superstar
But you're just a slave
They own you

Thought you'll happen in here
In the palm of your hand
Even though you've become master
What your masters plan
They got you tied up
Yea, they got you bound up
You're left for dead
Nothing like a chip for the bushman
Looks like you're out of luck

Slave to the light
Slave to the light
Then I saw everything
Give it all away
I'd rather live with nothing than be a, be a...

Slave, dragging your chain
Slave, look out for you'll fall
Slave, you thought you were a superstar
But you're just a slave

You're a slave
Nothing but a slave
You're a slave
Nothing but a slave
you thought you were a superstar

Slave, dragging your chain
Slave, look out for you'll fall
Slave, you thought you were a superstar
But you're just... you're just
A slave, dragging your chain
Slave, look out for you'll fall
Slave, you thought you were a superstar
But you're just a slave
