

Until There Was You

Queensrÿche

I reached out
and found you,
though you'd turned way.
Only we would know.
These careless words I need to define,
were they right or wrong? Only you would know.

If we fall apart now it's the end of me.
Won't ever survive without you next to me.
There's so much for both of us ahead.

Because it's you and me alone,
and I'm on my knees here.

I never needed anyone, till I needed you.
I never held a woman, till there was you.
I never saw the light of day, until you.

If I've said things that hurt you,
then I'm sorry. I didn't mean it that way.
This you have to know.

No matter what it seems

to your reasoning, our love is like the sea, washing
over me,
moving all around but always remaining.
So I'm on my knees.

I never needed anyone, till I needed you.
I never loved a woman, till there was you.
I never needed anyone.

I see it all now, it's so clear to me.
Whatever it takes, I'll be there, you'll see.
What you gonna do without me anyway?

Because it's you and me alone
and sometimes we just can't let go,
of all the pain that we hide.

I never needed anyone, till I needed you.
I never loved a woman, till there was you.
I never saw the light of day.
