

## Sorry

QUIÑ

I wouldn't want it with nobody else  
I need your loving like every morning, ain't it obvious  
Been thinking bout it all day  
So crazy  
My baby  
Don't you ever wonder  
You on my mind  
I said I gotta let you know you're on my mind

Your body language got an old soul  
A 90's baby with no cornrows  
A star sign of a cancer  
You say that changes come with answers  
Even the things that you can't see  
Even the times that you do hate  
My old girl said it can't be  
Little nervous when I see you  
Commitment got me shaky

Don't you ever wonder  
You're on my mind  
And I like the way you're all mine all the time  
Ooh  
You're on my mind  
I said I gotta let you know you're on my mind
