

Symptoms of your hands in glove
Worn out nightly stars shine brightly
Flips your wig she sold out big
In the right time right place
Right time right place

I remember when we were seventeen
There was nothing we wouldn't dare

Experience your luxury
Close to my heart swimming upstream
I see you pass by hello and goodbye
In the right place, right time

I remember when we were seventeen
There was nothing we wouldn't dare

Worn out nightly

Experience your luxury
Close to my heart, upstream
I see you pass by hello
Meet you in the shallows

I remember when we were seventeen
There was nothing we wouldn't dare
Experience your luxury
Close to my heart, close to me

Worn out nightly
