# Fire This Time

**Quicksand**

It's a lie kept inside
It's a chance we take
Going clear in the now
And the here, ready?

See how you feel, how you feel
How you feel in the morning
Overslept, what'd you expect?
It came without a warning

It's a ride
It's arrived
Fire this time

Do what you like, what you like
What you like all day

Petrified, catch your flight
Before it flies away

Why so tense up on the fence
Shock your heart back in it
It's a ride, it's on fire
There's no other way to spin it

It's alright
Look inside
It's alright
Fire this time

Look inside
It's alright
Fire this time
