

# Supercollider

Quicksand

Supercollider  
Let the phone ring  
No one's the wiser  
Just keep doing your thing  
Leading the witness  
I swear it's you  
Who makes the words jump right through

We can't live under  
For too much longer  
We can't live under  
Supercollider once again

Holding onto false memories  
So you can keep on doing as you please

We can't live under  
For too much longer  
We can't live under  
Supercollider once again  
Yeah

Supercollider  
Hold on

We can't live under  
For too much longer  
We can't live under  
For too much longer  
For too much longer  
For too much longer
