

Heebie Jeebies

Quicksilver Messenger Service

When I first fell in love, it was a Saturday night
I got the gal in the full moonlight
It was all right, everything was okay
Aw ha ha, what was making me feel this way

The heebie jeebies gotten to my soul
The heebie jeebies is right
The heebie jeebies and you lose control tonight

Destiny called, and I ran to the gate
I gotta hurry and don't be late
Cause at this rate, oh well I got any mind
Aw ha ha, I got the shivers up my spine

The heebies jeebies gotten to my soul
The heebie jeebies is right
The heebie jeebies and you lose control tonight

Why, you never put your feet on the ground
Right, you got to have an invitation around

Come out and it will cost whenever New York swings
Somebody thinking the world seems strange
There's no dealings, some much can come and roll
I wish I didn't have to get it for

The heebie jeebies gotten to my soul
The heebie jeebies is right
The heebie jeebies and you lose control tonight

Then I went to the woods at the head of the time
I found a mountain that don't look too fine
And at some point, we didn't have a care
But when I dangled it everywhere

The heebie jeebies gotten to my soul
The heebie jeebies is right
The heebie jeebies and they lose control tonight
