

# Holy Moly

## Quicksilver Messenger Service

Now do you love her?  
And does she suddenly make everything run smooth  
Do you love her?  
And does she have what it takes to pull you through?

She's the kind of girl, makes you want to hold things tight  
Get yourself together, do things right  
She's the kind of girl, makes you wanna think twice  
Get yourself a home, make things nice

Well, holy moly  
Can anybody tell me how I can stop this girl somehow?  
Well, holy moly  
Can anybody tell me the way to stop this girl now?

You've got to stop her 'cause I'm getting that old feeling  
Looks like I'm setting myself up for a dealing  
You've got to stop her 'cause I recognize this feeling  
Looks like I'm setting myself up for a dealing

Man, you got any questions?  
Well, come one now, don't be shy, just direct them right here at me  
Oh, anybody got a suggestion?  
About some better place that you think I ought to be?

And there is no place in this whole wide world  
That's not made just right by that girl  
And there is nothing here that I would rather do  
Than spend my whole life loving you!

Well, holy moly, baby  
I told you I loved you, now I'm wondering if I do  
Well, holy moly  
Oh, tell me now, how I am going to get myself through?

Well, holy moly, baby  
Well, tell me, tell me, tell me, I've gotta get myself (through changes?)  
These changes, these changes, baby  
How am I gonna set myself on free?  
Gotta set myself free  
Come on and turn me loose, come on  
Well, holy, holy moly!  
Yeah, oh yeah...

Holy, holy moly, baby  
Woah, oh, no, no, no  
Hey, hey, do you love her?  
I said do you love her? Woah, do you, do you? Yes you do  
Oh, yes I love her  
What can I do?  
Now how am I gonna get myself on through?  
Woah, holy moly  
Come on, tell me baby, how am I gonna get myself on through changes?  
Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah  
Holy moly, yeah! Oh, woah!
