

# The Letter

## Quicksilver Messenger Service

I think I'm gonna write you a letter  
Let you know that I'm still alright  
Say I hope you're feeling better  
It's been a long and lonely night

Baby now ain't the sun just shining  
End of the dawn in a brand new day  
If you read this in the morning  
I'll be a million miles away

I tried to tell you babe  
I really tried to make you understand  
But in the end I guess  
Some get left with a losing hand

Baby there goes another sleepless night  
Here comes the dawn and I feel alright  
I think I'm gonna be alright

Early in the morning  
I heard my baby singing  
Sweet sun was shining  
I think I'm gonna be alright

Certainly strange the way things happen  
From one moment to the next  
Between life's coming and love's going  
You just can't tell what to expect

And at the end of every rainbow  
There's a pot of gold they say  
But I don't know about your rainbow  
I'm not a million miles away

I tried to tell you babe  
I really tried to make you understand  
But in the end I guess  
Some get left with a losing hand

Baby there goes another sleepless night  
Here comes the dawn and I feel alright  
I think I'm gonna be alright

Early in the morning  
I heard my baby singing  
Sweet sun was shining  
I think I'm gonna be alright

Early in the morning  
I heard my baby singing  
Sweet sun was shining  
I think I'm gonna be alright

Early in the morning  
I heard my baby singing  
Sweet sun was shining  
I think I'm gonna be alright
