

# Broken Man

Quill

I've been cruising every highway but I don't know where I've been

All my life I've been rightful, if killing ain't no sin

I've been trying to remember what I did along the way

Who I am, where I came from, well I guess it's all the same

I know, tomorrow I will beg for today

I know, I've never been afraid

Yeah I know, I have ruined my plan

Now I'm standing here as a broken man

I was given just a little but I ended with a lot

In the poison I was drowning I deserved just what I got

I know, tomorrow I will beg for today

I know, I've never been afraid

Yeah I know, I have ruined my plan

Now I'm standing here as a broken man
