

Down

Quill

Someone's watching me from somewhere
when everything is breaking down
Bare me to your temple mother
let me die another day

I will deny eternity as I'm watching me

On my way down
On my way down
On my way down
On my way down
I'm going down

One step further led me nowhere
I was stuck inside this haunted house
Why was I shown all this glory
Heaven help me come around

I will deny eternity as I'm watching me

On my way down
On my way down
On my way down
On my way down
I'm going down

I will deny eternity, I will deny eternity
as I'm watching me

On my way down
On my way down
On my way down
On my way down
I'm going down
