

Mercury

Quill

I can see a black star
Close to the sun
Oh Mother mercy I cry for mankind
I can see a black star
Shadowing what's keeping me alive

Are you ready to catch it
When it falls
Or do you flee when dressed in twilight
Are you ready to catch it
Or is it just a burden in your hand

Mercury you finally came to me
You taste so sweet
Eating thru' my tongue

I can see a black star
Close to the sun
Oh Mother mercy I cry for starshoot
I can see a black star
Shadowing what's keeping me alive
