

# Mercury

Quill

I can see a black star  
Close to the sun  
Oh Mother mercy I cry for mankind  
I can see a black star  
Shadowing what's keeping me alive

Are you ready to catch it  
When it falls  
Or do you flee when dressed in twilight  
Are you ready to catch it  
Or is it just a burden in your hand

Mercury you finally came to me  
You taste so sweet  
Eating thru'my tongue

I can see a black star  
Close to the sun  
Oh Mother mercy I cry for starshoot  
I can see a black star  
Shadowing what's keeping me alive
