

# Save Me

Quill

Well I'm walking backwards into the light  
To a place where nothing grows but I will harvest life  
There's no question, do or die  
Cause I fade away to nevermore  
I have walked a nowhere mile  
Along with troubled times

Save me if anyone is out there  
Cause this hard road is leading into nowhere  
Time and again  
I trip and I fall  
In silence I'm making my plea  
Save me

I reclaim the future cause I'm lost in the past  
Yeah I am going forward thou' it seems I'm going back  
Now you see me now you don't  
An illusion til my God says- yeah  
I think I've found the missing link  
There is no master plan

Save me if anyone is out there  
'Cause this hard road is leading into nowhere  
Time and again  
I trip and I fall  
In silence I'm making my plea  
Save me

Yeah- yeah I'm beginning to believe I've been misled  
Yeah- yeah I'm beginning to believe I've been misled
