Ephedrine

Quincy Punx

I take it all the time
it costs five ninety nine
it always does the trick for me
its not heaven but
it always gets me up
and its the best of legal speed
i'm on ephedrine
I dont know where my penis went
ive been awake for 90 days
I take a dozen hits
throw a ballistic fit
then i stare off into space
thought it would always be
a distant fantasy
to buy white crosses at the store
been drinkin like a jerk
i gotta go to work
so I'll take a dozen more
I'll smoke a another pack
another heart attack
ain't sp unusual for me
I'll run around the block
I still can't find my cock
and I don't know where it could be
