

# Make Time

Quinn XCII

You know me  
Way before my songs were number one for weeks on HypeMachine  
You said that I'd make it  
Honestly  
We go back before record labels would even wanna fuck with me  
You said to have patience

These past months have been insane  
You draw conclusions from the pictures  
You want things to stay the same, but nobody's perfect

Look I'm tryin', to make time  
Now that you and everyone's watching  
I've got eyes on both sides  
And it's moving too fast to stop it  
Hey, I'm only human  
These ugly excuses are leading to letting you down  
And I swear  
That I'm tryin', to make time  
Take it easy on me

Take it easy on me

I'm out here  
Gotta finish up these records, need to focus on my career  
Don't think I don't miss you  
I've got new friends (friends)  
They talk a lot of shit behind each other's backs  
That's the way it is  
We've all got our issues  
Don't let rumours eat us alive  
Drawing conclusions from the pictures  
You know I want to get this right  
Nobody's perfect

Look I'm tryin', to make time  
Now that you and everyone's watching  
I've got eyes on both sides  
And it's moving too fast to stop it  
Hey, I'm only human  
These ugly excuses are leading to letting you down  
And I swear  
That I'm tryin', to make time  
Take it easy on me

Take it easy on me  
Take it easy on me  
(Yeah)  
And I swear  
That I'm tryin', to make time  
Take it easy on me

Look I'm tryin', to make time  
Now that you and everyone's watching  
I've got eyes both sides  
And it's moving too fast to stop

Look I'm tryin', to make time  
Now that you and everyone's watching  
I've got eyes both sides  
And it's moving too fast to stop it  
Hey, I'm only human  
These ugly excuses are leading to letting you down  
And I swear  
That I'm tryin', to make time  
Take it easy on me

(La la lala la la)  
Take it easy on me  
(La la lala la)  
Take it easy on me  
(La la la la la, yeah)  
And I swear  
That I'm tryin', to make time  
Take it easy on me
