

## New Wave

Quinn XCII

We love falling deeper  
Drown ourselves in all that goes on  
You say fear the reaper  
I say bring him on

You probably follow  
I'm on the new wave  
You're looking hollow  
I found a new way  
Show me how you do  
Tell me how you feel  
'Cause you say you're living fine all the time  
But I know what's real  
And it's all the same  
Tell me how you deal  
'Cause you been waiting on the next thing I would say  
I'm on a new wave

I'm on a new wave  
I'm on a new wave  
(She gotta be my love to worry 'bout)  
I'm on a new wave  
(You got it, don't say no, don't worry bout it, you got it)

They can't help but notice  
Say my name till they wear it out  
And envy is the focus  
There's no reason to doubt

You probably follow  
I'm on the new wave  
You're looking hollow  
I found a new way  
Show me how you do  
Tell me how you feel  
'Cause you say you're living fine all the time  
But I know what's real  
And it's all the same  
Tell me how you deal  
'Cause you been waiting on the next thing I would say  
I'm on a new wave

I'm on a new wave  
I'm on a new wave  
(She gotta be my love to worry bout)  
I'm on a new wave  
(You got it, don't say no, don't worry bout it, you got it)

Tell me all your problems  
Know I simply can't relate  
And if you call me on my cellphone  
Know I give it to you straight  
I'm on a new wave, hey yeah  
I'm on a new, yo, oh, oh, oh

I'm on a new wave  
'Cause you say you're living fine all the time

But I know what's real  
I'm on a new wave  
(She gotta be my love to worry bout)  
'Cause you been waiting on the next thing I would say  
I'm on a new wave
