

## silver second

quinnie

Mitten in the snow  
Angels in a row  
My turn to place them  
On the piano  
Sweating through our coats  
Blushing on the nose  
We didn't know it  
There in that moment

That everyone's together in that moment of your life  
Frozen in a snow globe, spin so slowly like you're stuck in time,  
ah-ah, ah  
When everyone's together in that moment of your life  
All the tiny changes, pile up until you're snowed inside

You know I get cold  
Moved away from home  
Ran from the winter  
I'm still your sister  
Getting on the plane  
Showing signs of age  
Creased where we've smiled  
I'm still your child

And everyone's together for a moment just today  
Hold yourself together for a bit, before it slips away, ah-  
ah, ah, ah  
When everyone's together for a moment just today  
Let each silver second settle on your tongue and melt away, ayy  
, ayy, ah-ah, ah, ah  
Ah, ah-ah  
Ah, ah, ah, ah

Ring around the year  
End up right back here
