spilt milk

quinnie

And since when do we find well fed lovers on our minds and in o
ur covers, kitchen, sitting watching you consume the things you
 need

Sitting pretty I believed that interesting means misery as love
rs rot away mouth to my hand from which to feed

And staring at your shark tooth smile I recall that its been a
while since you said that you think I look like that celebrity

And I'll say love me lingering, despite this constant dwindling
 as I am learning quickly you seek no dependency

Getting off on my guilt
Guess thats just how I'm built
You know where to find me I'll be sipping on that spilt milk

Getting off on my guilt
Guess thats just how I'm built
You know where to find me I'll be sipping on that spilt milk

Getting off on my guilt
Guess thats just how I'm built
You know where to find me I'll be sipping on that spilt milk

Getting off on my guilt
Guess thats just how I'm built
You know where to find me I'll be sipping on that spilt milk
