

God...Is that you?
No, just me bitch!

You know me you know I'm carefree
Might switch it up living in 5D
Bitch, kick it up when I rise like Phoenix
They don't know what's happening
You know me you know I'm carefree
Might cut you off
Wanna see this bad bitch level up (Uh)
When I rise like Phoenix
Cut through shit like laser beams (Keep up)

I'm sorry but it's silly to me
Now that you had really no idea
Who the fuck that you were dealing with (Ha ha!)
I'm like the second coming
Yeah, the faucet running
All my genius I was leakin'
You were way too busy stealing it
So if you're feeling stupid pay attention
I'll repeat it (Whoa)
Did I mention every day I slay
But I don't get conceited
When I look in the mirror I see my soul
We have agreed to be the realest
And I put that shit on everything

Burning, burning, burning
Thinking I found my purpose
Make the shit hot like furnace
Shut the fuck up, keep learning (Uh)
Bitch, I've been working on myself
You can't come for the new me, wow
Bitch wanna get like this?
You've got to keep it moving

You know me you know I'm carefree
Might switch it up living in 5D
Bitch, kick it up when I rise like Phoenix
They don't know what's happening
You know me you know I'm carefree
Might cut you off (Cut you off)
Wanna see this bad bitch level up (Uh)
When I rise like Phoenix
Cut through shit like laser beams (Keep up)

Ooh but don't make me snap (Do it)
Don't make me show you how I move
When this shit gets bad
You know I-I'm always
Listening, learning, making amends
I'm on a mission, making friends
No competition I'm a sport
And I just let 'em win
I can't avoid the lesson
Can't go back to where I been

There's something new and better
On the flip side if you let it in
I'm too empathetic, I don't regret it
I'm resilient, rip my shit on some wax again
Take it naked like Brazilian
Every now and again I just gotta die a little
Burn a little, vibe a little
Throw me in the fire bitch

Fallin', fallin', fallin'
This little bitch go all in
I'ma transform, no warning
I'll be reborn by morning (Yeah)
Bitch, I've been working on myself (Work it out)
You can't come for the new me, wow
Bitch wanna get like this?
You've got to keep it moving

You know me you know I'm carefree
Might switch it up living in 5D
Bitch, kick it up when I rise like Phoenix
They don't know what's happening
You know me you know I'm carefree
Might cut you off
Wanna see this bad bitch level up
When I rise like Phoenix
Cut through shit like laser beams (Keep up)
