Nice to meet you, let me introduce us  
We're QWER  
For those who don't know, let's do this one more time  
Roll, roll, rock and roll

We're an inharmonic siren  
Without crying we've gathered all the strength we've saved  
Let's raise our voices for this moment

What should we do, the noisy us  
Even if you tease us that we're fake  
We'll tell you our true feelings  
Watch us, we're your i-dol

Haha, haha, ha (Okay)  
One by one, let's turn the world upside down  
Ha, haha, hahahaha (Okay)  
Your own idol blooming on stage

Ha  
Okay  
Hey, one, two  
Q-W-E-R

Born from the algorithm  
Let's bloom flowers above the prejudice  
We'll play the whole world  
Listen carefully

We're an inharmonic siren  
Without crying we've gathered all the strength we've saved  
Let's turn them all upside down

What should we do, the noisy us  
Even if you tease us that we're fake  
We'll tell you our true feelings  
Watch us, we're your i-dol

Haha, haha, ha (Okay)  
One by one, let's turn the world upside down  
Ha, haha, hahahaha (Okay)  
Your own idol blooming on stage

Even monsters in the magical forest in fairy tales  
Can't stop us  
Until I reach the sky with my guitar  
We'll run, we'll sing! Lalala

Haha, haha, ha (Okay)  
A thrilling twist  
Ha haha haha ha (Okay)  
Watch us, we're your own idol

Ha  
Okay  
Ha, ha, ha, ha, ha, ha  
Your own idol
