Now how could the musicians be the scholars When they making less than four percent of six dollars Most the kids that gig to rap just dont Deserve opinions actin like critics, Lookin like richard simmons Now they sportin timbalands And i ain't tryin to be accepted But its hectic when ya trying to sell ya records And your record label dont respect it Now all these promotional stunts keeps me emotional Not hospitable, i never recoup so it's not profitable And i can end up as white trash, livin in the trailer park Eatin tuna fish with my cheese whiz So howd you get your job in the black music department? Since i was growin up thats where my heart went I won't be goin out like kurt cobain, or tatoo 'Da Plane, Da Plane' Jibba- Jaaaaane! So if my sales don't succeed the expectations My relation...ships will be uzi clips and decapitations Cause the facts is technically, i need a vasectomy No pregnancy, kids got the tendency to be sweatin me So do ya own, them scumbags is makin moneybags in the meantime Your Karl Kani's turn to rags Cause labels don't know shitty rappers from any rappers So listen rappers they only know how to pinch a penny rappers I end up bankrupt and penniless while you remain the rich man My fist is up your ass to rip your lips off This ain't the rock n roll era so how could you know Whats worse or better chillin in your polyester sweater A big advancement doesn't make the move the wisest Cause Def Jam offered more loot than Jive did.
