

# Make It Happen

Rüfüs Du Sol

I look back upon my life  
And wonder  
What it might be like  
If we had met when we were young  
In the schoolyard  
Back before it all began

Where were you when I was young?  
I wish I knew you then  
I wish I knew you then

I'd ask if I could hold your hand  
I would have loved you then  
I would have loved you then

Love can change your life  
Love can make it happen  
Love can change your life  
Love can make it happen

Love can change your life  
Love can make it happen  
Love can change your life  
Love can make it happen

Flying back where I belong  
On Sunday  
Back into your arms  
I am leaving when the Sun goes down  
I miss you  
Soon, I'll see your face again

Where were you when I was young?  
I wish I knew you then  
I wish I knew you then

I'd ask if I could hold your hand  
I would have loved you then  
I would have loved you then

Love can change your life  
Love can make it happen  
Love can change your life  
Love can make it happen

Love can change your life  
Love can make it happen  
Love can change your life  
Love can make it happen

Hold on  
(Love can change your life) Don't wanna be long, hold on  
(Love can make it happen) Hold on  
(Love can change your life) I'm coming home, hold on

(Love can make it happen) Hold on  
(Love can change your life) I won't be long, hold on

(Love can make it happen) Hold on  
(Love can change your life) I'm coming home, hold on

Love can make it happen  
Love can make it happen  
Love can make it happen

Where were you when I was young?  
I wish I knew you then  
I wish I knew you then

I'd ask if I could hold your hand  
I would have loved you then  
I would have loved you then
