

## Headlong

R.I.O.

Try to hold my head up high  
But I cannot fake  
Babe I need your lullaby  
Not to stay awake  
And whenever I lose myself in disbelief  
Then I got you on my mind, some kinda relief

I hold on  
'Till the fire in my heart is gone  
I hold on, headlong  
'Till the fire in my heart is gone  
(Shine on)

When I finally fall asleep  
You're surrounding me  
As you're flooding through my dreams  
Every inch of me  
Tells me stories of my life and of what could be  
Always by my side, some kinda belief

I hold on  
'Till the fire in my heart is gone  
I hold on, headlong  
'Till the fire in my heart is gone  
Let the love shine on

Let the love shine on

Try to hold my head up high  
But I cannot fake  
Babe I need your lullaby  
Not to stay awake  
And whenever I lose myself in disbelief  
Then I got you on my mind, some kinda relief

I hold on  
'Till the fire in my heart is gone  
I hold on, headlong  
'Till the fire in my heart is gone  
Let the love shine on

Let the love shine on

I hold on  
'Till the fire in my heart is gone  
I hold on, headlong  
'Till the fire in my heart is gone  
Let the love shine on
