

One Heart

R.I.O.

So wake up
While you are children
Tune in to the rhythm of love
Open your eyes
And watch the red sunlight
Feeling goodwill, straight from the sky

Everybody feels one love, one heart! (everybody feel it!)
Everybody feels one world, one heart! (everybody feel!)
Everybody feels one love, one heart! (everybody feel it!)
Everybody feels one world, one heart!

So wake up (wake up)
While you are children (children)
Tune in to the rhythm of love
Open your eyes (your eyes)
And watch the red sunlight
Feeling goodwill, straight from the sky...

Everybody feels one love, one heart! (everybody feel it!)
Everybody feels one world, one heart! (everybody feel!)
Everybody feels one love, one heart! (everybody feel it!)
Everybody feels one world, one heart! (everybody feel!)

Now dance to this
And move to this
Y'all twist and shake and groove this, do this
Spreadin' love is the thing we do
Everybody come with them fool

Rip it up
'Cause you know that we love this
And you know that we have to (...) this
And now (...) left out from the start
Now turn back

Rip it up and get back down
Nobody turn around, nobody turn around
This song will make you move and come back
Everybody know we happy
Come; clap-clap-clap your hands
(...)
'Cause we knows you really wanna do this
(...) with the R.I.O.
Bringing down 'cause you know this is our show, so come on y'all

Everybody feels one love, one heart! (everybody feel it!)
Everybody feels one world, one heart! (everybody feel!)
Everybody feels one love, one heart! (everybody feel it!)
(I feel love, I feel love...)
Everybody feels one world, one heart! (everybody feel!)
(I feel love, I feel love...)
I FEEL LOVE!

One love, one heart!
Everybody feels one world, one heart!
Everybody feels one love, one heart!

Everybody feels one world, one heart!
