

All Into Nothing

R3hab

Haven't seen you since the summer
Strangers talk more than we do
Don't know me without each other
It's taking time to get used to

You didn't even call me
When you came to town
What's that all about
I know you're trying not to hurt me
You don't wanna bring me down
Why's it gotta be so

Black or white this time
How could you go from all into nothing
Love or hate this time
How could you go from all into nothing
How could you go from all into nothing

Wish I knew how you were doing
See your friends at coffee shops
Work is fine I'm keeping busy
Till I break down in parking lots

You didn't even call me
When you came to town
What's that all about
I know you're trying not to hurt me
You don't wanna bring me down
Why's it gotta be so

Black or white this time
How could you go from all into nothing
Love or hate this time
How could you go from all into nothing
How could you go from all into nothing
