

Distant Memory

R3hab

I'm tucked in
By my melancholic dream
And just like that
I am carried by the wind
Flying to
Where the magic fairies sing
Don't wake me up till it's over

I love when you sing to me
Calm me down with your symphony
I love when you sing to me
When all things bad, just a distant memory

The sky was dark
Now it's lit up by the stars
And just like that
I am back into your arms
When I'm up here
We will never be apart
Don't wake me up till it's over

I love when you sing to me
Calm me down with your symphony
I love when you sing to me
When all things bad, just a distant memory

Just a distant memory
Just a distant memory
