

Electricity

R3hab

When you're next to me
Jumpstart my heart
Till you hear the beat

It's on your fingertips
I don't know what it is
It sparks a fire

I wanna take a risk
I've never felt like this
Down to the wire

There's no way to fight this
Whenever we're close
Don't want it to end, end, end

'Cause I feel the lightning
Inside of my bones
And I want it again, again, again

When you're next to me
Jumpstart my heart
Till you hear the beat

I, I, I feel it running deep
Some kind of electricity
When you're next to me

When you're next to me
Jumpstart my heart
Till you hear the beat

I, I, I feel it running deep
Some kind of electricity
When you're next to me

Electricity
Electricity

Oh I was on my own
In need of physical
To kill the lonely

The way you switch me on
It's so original, I
Can't keep it low key

There's no way to fight this
Whenever we're close
Don't want it to end, end, end

'Cause I feel the lightning
Inside of my bones
And I want it again, again, again

When you're next to me
Jumpstart my heart

Till you hear the beat

I, I, I feel it running deep
Some kind of electricity
When you're next to me

When you're next to me
Jumpstart my heart
Till you hear the beat

I, I, I feel it running deep
Some kind of electricity
When you're next to me

Electricity
Electricity
