Over

R3hab

I remember you wanted
To get up close when you're home
Take it straight to the bedroom
I don't know where we lost it
Was it that trip to New York?
Was it that party we went to?

You used to say things you didn't mean
But this time I felt you meant it
You used to love all the parts of me
But this time you're just pretending
Spilling drinks and spilling feelings
Say you hate me, say you're leaving
And this time I believe ya

I can't get over that it's over
And how you got closure
Can't deal with this sober
I can't get over that it's over
Or how I'm supposed to
I wish I could hold ya
I can't get over that it's over
I can't get over that it's over

Do you remember that summer
When we went back to your parents?
We didn't have to pretend then
Know we skipped a few chapters
We're getting high off the magic
Lost it all when we landed

You used to say things you didn't mean
But this time I felt you meant it
You used to love all the parts of me
But this time you're just pretending
Spilling drinks and spilling feelings
Say you hate me, say you're leaving
And this time I believe ya

I can't get over that it's over
And how you got closure
Can't deal with this sober
I can't get over that it's over
Or how I'm supposed to
I wish I could hold ya
I can't get over that it's over
