

Scared Together

R3hab

It's ok if you stop fighting
And there is no shame in crying
I'll turn your night into a morning
I will bring you the sun

Life is hard we can't rewind it
Half the hurt if we divide it
Maybe lost but never lonely
You and me can't go wrong

I'll protect you from your demons
Be your band aid while you're bleeding
Keep you safe and keep you calm
Until the pain is gone

Don't be scared (don't be scared)
Cause we're scared together
Don't be scared (don't be scared)
It won't hurt forever

Let your tears fall on me
Till your fears let you sleep
Don't be scared
Cause we're scared together (together)

If you follow the horizon
I'll be just one step behind you
I'll make sure I'm breathing for ya
When you're weak on the run

I'll protect you from your demons
Be your band aid while you're bleeding
Keep you safe and keep you calm
Until the pain is gone

Don't be scared (don't be scared)
Cause we're scared together
Don't be scared (don't be scared)
It won't hurt forever

Let your tears fall on me
Till your fears let you sleep
Don't be scared cause we're scared together (together)

Don't be
Don't be
Don't be (we're scared)
Don't be (together)

Don't be
Don't be
Don't be
Don't be
