

Adios

R5

Adios, adios, la la la...

You know what I'm thinking
We're still running out of time, time
Midnight, let it sink in
Live life, never hit rewind

I can take you any place
From here to outer space
Jump in my ride and we'll take off
Flying down the interstate
We're doing ninety-five
No time to say goodbye
Going so far that we're counting stars
Instead of city lights

Come with me, my señorita
Put on your Adidas and go
Wave goodbye to the world
That we used to know

Come on now, let's get lost
Just put your hands up high
Lift you up to the sky
And we'll drop you, hold you tight

Señorita, put on your Adidas and go

I know what you're thinking
But I won't ever let it in, in
The mood, it might be sinking
But tonight we'll do it all again

I can be your getaway
Breaking the brake today
We'll never stop till we see the sun
Go down and fade away
We're doing ninety-five
No time to say goodbye
Going so far that we're counting stars
Instead of city lights

Come with me, my señorita
Put on your Adidas and go
Wave goodbye to the world
That we used to know

Come on now, let's get lost
Just put your hands up high
Lift you up to the sky
And we'll drop you, hold you tight

Señorita, put on your Adidas and go

Adios, adios
Adios, adios
Adios, adios

Adios, adios

Come with me, my señorita
Put on your Adidas and go
Wave goodbye to the world
That we used to know

Come on now, let's get lost
Just put your hands up high
Lift you up to the sky
And we'll drop you, hold you tight

Señorita, put on your Adidas and go

Adios, adios
