

Torch

R5

There will come a day
When your tears fall like rain
I'm gonna be there
I won't turn away
From the pain in your face
I'm gonna heal it

I will stop the fire
I'm the spark, spark, spark, spark
And I will shine the light
In the dark, dark, dark

I'll carry a torch for you
I'll carry a torch
I'll carry a torch for you
I'll carry a torch

Take me to the other side
I ain't afraid to find
You will see me run and hide
I ain't afraid to die
I'll carry a torch

All the people say
That it's time for a change
We are ready
I will be the word
I will stop 'til it's done
I'm gonna get, get, get it

I will stop the fire
I'm the spark, spark, spark, spark
And I will shine the light
In the dark, dark, dark

I'll carry a torch for you
I'll carry a torch
I'll carry a torch for you
I'll carry a torch

Take me to the other side
I ain't afraid to find
You will see me run and hide
I ain't afraid to die
I'll carry a torch

I'll carry a torch for you
I'll carry a torch
I'll carry a torch for you
I'll carry a torch

Take me to the other side
I ain't afraid to find
You will see me run and hide
I ain't afraid to die
I'll carry a torch
