

Trading Time

R5

Ooh, girl, I'm tired of these nights, they come and go, yeah
Ooh, love, I wonder what you like and what you know, yeah
I been catching these feelings, side effects of the weekend
We should take it slow

'Cause we're just tra-ad-ing time
You can stay all night
You can stay all night, all night
'Cause we're just tra-ad-ing time
You can stay all night
You can stay all night, all night
Leave the lights on, drink these bottles
It's just us until tomorrow
'Cause we're just tra-ad-ing time
You can stay all night
You can stay all night, all night

Ooh, girl, I think we all look foolish by design, yeah
Ooh, love, I don't intend to get caught up in lie, no
Don't know what I believe in, praise your body on Jesus
We can take it slow

'Cause we're just tra-ad-ing time
You can stay all night
You can stay all night, all night
'Cause we're just tra-ad-ing time
You can stay all night
You can stay all night, all night
Leave the lights on, drink these bottles
It's just us until tomorrow
'Cause we're just tra-ad-ing time
You can stay all night
You can stay all night, all night

When you move it like that, I can't ever go back
When you move it like that
When you move it like that, I can't ever go back
When you move it like that

'Cause we're just tra-ad-ing time
You can stay all night
You can stay all night, all night
'Cause we're just tra-ad-ing time
You can stay all night
You can stay all night, all night
Leave the lights on, drink these bottles
It's just us until tomorrow
'Cause we're just tra-ad-ing time
You can stay all night
You can stay all night, all night
