

We Won't Back Down

Ra

Get up, all I see is red
On top, heavy is the head
Yet we will stand our ground
No we won't back down

What are you waiting for?
Strap on your armor now it's time for war
There'll be no place to hide
Sharpen your blades 'cause tonight we ride
'Cause it's one for all
You can push, but we'll never fall

Get up, all I see is red
On top, heavy is the head
Yet we will stand our ground
No we won't back down
On fire, fists are in the sky
Recharge, fury never dies
Yet we will stand our ground
No we won't back down

Don't try to play too fast
'Cause in a hustle you're always counting last
There'll be no peace tonight
The more you struggle the more we fight
'Cause it's one for all
You can push but we'll never fall

Get up, all I see is red
On top, heavy is the head
Yet we will stand our ground
No we won't back down
On fire, fists are in the sky
Recharge, fury never dies
Yet we will stand our ground
No we won't back down

Your efforts are wasted
Your status degraded
We have grown strong from the weight of our greatness

'Cause it's one for all
You can push, but we will never fall

'Cause it's one for all
You can push, but we will never fall

Get up, all I see is red
On top, heavy is the head
Yet we will stand our ground
No we won't back down
On fire, fists are in the sky
Recharge, fury never dies
Yet we will stand our ground
No we won't back

Get up, all I see is red

On top, heavy is the head
Yet we will stand our ground
No we won't back down
On fire, fists are in the sky
Recharge, fury never dies
Yet we will stand our ground
No we won't back down
